

Announcement of MHP-CONFIDENCE

Subject: Tendering process for developing and enhancing MHP conformance tests
Date: Thu, 25 Mar 2004 11:20:07 +0100
From: Rainer Schaefer <schaefer@irt.de>
To: german-tv-interop@irt.de, mhp-impl@ifn.ing.tu-bs.de, mhp-interop8@irt.de

Dear all,

the MHP-CONFIDENCE project is an FP6 project supported by the European Commission and started its work in November 2003. This project targets the development of additional conformance tests for MHP and potentially other derived standards.

We would like to draw your attention to the fact that the project plans to place a series of sub-contracts for the implementation of tests. Potential sub-contractors will require deep experience in developing applications on MHPs currently deployed in the market and/or in developing (parts of) MHP stacks, and should have advanced knowledge in specific areas of the MHP specification, e.g. font usage, locators, DVB-SI, DSMCC.

The target of this email is to encourage potential partners to respond to this request and to let us know your specific skills.

The project plans to invite selected potential partners for further negotiations. Please note that further negotiations will also include the exchange of confidential information. Parties responding to this request should be prepared to sign according NDAs.

If you are interested, please respond and make yourself known to the project coordinator of MHP-CONFIDENCE:

Rainer Schaefer
schaefer@irt.de

before April 15th 2004.

Best regards,

Rainer Schaefer.
